

CERES GLEANN HOA
AGE VERIFICATION SURVEY RESULTS
SEPTEMBER 2023

By way of preface, a note from the September 2021 Age Verification report is repeated here:

"Future Age Verification studies will be constructed from the baseline information underpinning this 2021 report. Data will be collected on incoming residents at the time of move in and a master list will be updated accordingly. Reports due in 2023, and subsequent years, will be the product of carried forward 2021 resident information as updated by the new resident move in data."

Using the methodology described in the cited section above, Ceres Gleann Age Verification results for 2023 are as follows:

1. 133 households/homes are located within the Ceres Gleann HOA
2. 132 households/homeowners have completed age survey forms
3. 1 household/homeowner has not completed an age survey form; age for this resident has been verified via third party certification. (Third party certification done by Candi Carlisle, Judy Gram).

RESULTS

131 households/homes are occupied by residents 55 years of age or older;
2 households/homes are occupied by residents younger than 55 years of age.

Percentage occupied by residents 55 years of age or older: .98496%
